Dear KP LAUNCH Summer 2020 interns,

As our organization responds to the unprecedented COVID-19 pandemic, our focus is to continue keeping our communities safe and healthy. After serious consideration, a difficult decision was made to cancel the KP LAUNCH summer internship program in alignment with other Kaiser Permanente non-clinical summer internships. We are no longer having a KP LAUNCH internship program for the summer 2020.

Our Kaiser Permanente physicians and employees are focusing on critical care while serving our members, patients, and community.

For now, no action is needed on your part. We have your information on file if any opportunities become available. You may continue to use your KP Jobs website profile to search for and apply to other jobs that may interest you as you continue along your professional development path.

If you have any questions, please contact KP LAUNCH staff at kp.launch@kp.org or (510) 987-3297.
